Image: Mel Yates/Cultura/Getty Images Everyone loves puzzles. We love a bit of a mystery to settle down where the stakes are low and reward is just a sense of our own joy after solving it. The answer can consist of a clever clever to clear humiliation, but the journey to getting to them is where pleasure is. From the puzzle of an empty body type that is easy to even silly to the mysterious puzzles that play in metaphors and symbolism, there is no end to the word language puzzle allows us to establish. The puzzle may have been told as long as our ability to communicate has existed. They play on linguistic parallels when words and meanings can be confused with each other, or jokes where meanings have different layers and applications. The other time they present the mystery, offering a confusing enough clue to take you to many false answers. You'll only find the right one if you're smart enough to catch where the puzzle confuses you. They are witty and fun because they actually make us think rather than just offering answers immediately. They teased and pulled because we got into it knowing there were tricks involved, but didn't realize what was possible. It's like visiting a trick show or an escape room. Just because you know you're deceived doesn't mean you know how it happened. If you consider yourself a puzzle expert and a complicated puzzle master, it's time to put yourself up for the test.
